Respected Colleagues,

Book Volume Project
on
Title: Food Frontiers

Shyama Prasad Mukherji College is a constituent college of University of Delhi. It offers undergraduate courses in various fields. Department of Food Technology of our college has been working towards enriching the students in various ways for developing their professional competency. As a part of golden jubilee celebration, and to enrich our experience we are immensely pleased to inform you that we are to bring out a book volume on *Food Frontiers*. The edited book will focus on all the areas of food starting from farm to fork.

In India, the food sector has emerged as a high growth and high profit sector due to its immense potential for value addition, particularly within the food processing industry. The Indian food industry is poised for huge growth and bringing foreign currency by increasing its contribution to world food trade every year.

With the changing customers' buying practices, the Indian food and grocery market is the world's sixth largest, with retail contributing 70 percent of the sales. The Indian food processing industry accounts for 32 percent of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 8.8 and 8.39 percent of Gross Value Added (GVA) in Manufacturing and Agriculture respectively. These data reflect the huge potential in the sector. As the food processing sector is highly fragmented industry so with Food Frontiers, our aim is to bring the recent updates on all sectors and aspects together.

The book volume endeavour is to compile multiple perspectives on the various aspects of food processing starting from post harvest handling till the consumer digests the food. It also targets to include the changing contour and perspectives on food safety and handling which are gaining centre stage in the public and academic discourse in recent times. The edited book will be published by a reputed & recognized publisher and will have an ISBN no. The name of the contributor will be published in the index. Interested Industry, faculty members, researchers and scholars are request to contribute chapter in English on the following subthemes.

- (1) Food Production and Processing
- (2) Nutrition and Health
- (3) Value Addition
- (4) Food Packaging
- (5) Waste Utilization
- (6) Food Adulteration and Food Safety
- (7) Food Patent
- (8) Food Accreditation

(9) Food Advertising and Marketing

(10) Food Retail

(11) Use of ICT

The above suggestive themes are indicators, but we will appreciate if writers bring out or open up new horizons on the various aspects and concepts of food processing in India.
