WORKING PAPERS

Wagner's Law: An Empirical Analysis with reference to India <i>Co-authored with Vishavdeep Sharma and Ravi Sundaram</i>	<i>Fall 2021</i>
<ul style="list-style-type: none">Using India's public expenditure data, various techniques have incorporated, such as time-series regression analysis, unit root tests, cointegration techniques, and vector error correction model in this paper. The results showed a positive elasticity of growth rate in expenditure to the first difference of per-capita GDP with some modification in the theoretical model proposed by researchers.	
Locating Equality in Pasanga Village: Question of Land Ownership and Resources <i>Under the supervision of Prof. Krishna Menon</i>	<i>Fall 2022</i>
<ul style="list-style-type: none">In my MPhil work, we conducted a profound study in Gumla, Jharkhand, analyzing the concepts of equality and land ownership within a rural tribal community. Employing action research methodology, I explored the relevance of 'basic capability equality,' as proposed by Amartya Sen, in contrast to traditional economic	

parameters of equality. The research highlighted the tangible impacts of equality perceptions on community dynamics, and initiated transformative actions which resulted in enhanced community interdependence, diversified nutritional intakes, and collective economic activities.

OUTREACH AND EXTENSION PUBLICATION

Joint article publication with Dr. Surajit Das in Vikalp, titled, "[Bad news for rural wages](#)"¹. The article published in two languages Hindi and English.

ACADEMIC PROJECTS

Women in Formal and Informal Sector

Labor Economics Project

JNU, Delhi

Spring 2018

- The project was based on the survey of women workers in both formal and informal sector. The research group covered various parts of Delhi (mostly slums areas in Seelampur, Inderlok) in order to survey women in informal sector. And to survey women engaged in formal sector the group emphasized on the women workers in Jawaharlal Nehru University. This project made the use of Excel for data analysis to reach the empirical results.

Impact of Monsoon on Food Inflation—Trend Analysis

Indian Economy Term Paper

JNU, Delhi

Spring 2018

- There are multiple factors which directly or indirectly influence the level of inflation in the Indian economy. Indian agriculture is heavily dependent on monsoon and poor monsoon has always resulted in increase in food inflation. The interaction between fiscal and monetary policy also explains the consistently rising inflation trends. Moreover, there are supply side and demand side factors which contribute to food inflation. Increase in MSP has also been one of the major factor for the rise in CPI.

Structure and Growth of Indian Industries

Indian Industries Term Paper

JNU, Delhi

Spring 2018

- The analyses shows that the changes in the pattern of outward direct investment particularly changed in the post war period. In pre war period the investments were related to the extraction of the raw material from the developing countries which also lead to stagnation in the economies of the developing countries.
