

## Message from the Head of the department

Welcome to the web page of the Department of Geography. I am delighted to see you exploring our web site and considering us one of the Colleges you may join. By scrolling around, you should be able to learn about our exciting graduate program, activities and our dynamic faculty. We strive hard for academic excellence and good results apart from extracurricular activities for overall development. Our undergraduate students contribute immensely through their talents and innovative ways.

Progress is impossible without change. And those who cannot change their minds cannot change anything. My message to the youth today is to bring forth new ideas that can change our future and to become part of the mission for new knowledge and new practices. This is the time in our national evolution when we must rethink the need to refurbish our institutions with new ideas. An India where rational, humane and open-minded ideas exist must develop. We must work to create a world in which we Indians can prosper and progress in a safe and secure environment.

I would like to quote my favourite lines “It is not about how others are or how society is. The most important thing is to ask yourself, “What should I do?” and “What can I do?” One who stands up with moral courage and conviction can change society and create waves of transformation around the world”.

— Daisaku Ikeda
